## Workshops on standardisation needs and opportunities in disaster resilience

The H2020-project ResiStand contributes to enhanced disaster resilience capabilities by identifying and analysing the drivers, constraints and expectations towards standardisation of **three main stakeholder communities: Standardisation Organisations, End-Users / Practitioners** in crisis management and disaster resilience, and **Suppliers**, consisting of researchers, industry and SMEs.

ResiStand now cordially **invites you to participate in one of its workshops** on standardisation needs (for End-Users) or opportunities (for Suppliers from industry and research) in disaster resilience:

**Helsinki: 24 January, 2017**

**End-User workshop on standardisation needs**
